New and Interesting Happenings Within Our Borders.

Less to Ohio Sheriff ..

COLUMBUS, O., Aug. 8 .- Senator Cromley claims that through a mistake of the enrolling clerks in the recent legislature the sheriffs of the state are getting the worst of it. A bill was introduced regulating the remuneration allowed sheriffs for taking insane patients to asylums, and was amended to allow them ten cents a mile. Later this was changed to five cents a mile, and still later it was reamended and ten cents a mile allowed. The enrolling clerks did not keep up with the procession, however, and the law appears printed with five cents a mile remuneration.

The German tourists, Herren Soll and Durbeek, have been killed in an attempted ascent of the Dreisch Usterspitz, in the Dolomite Alps.

The Shanghai correspondent of the London Daily Mail says: "Russia is now practically in possession of New-Chwang, and 'the open door' in north China is already shut."

A dispatch from the Villa Abers, at Tatzing, near Munich. Bavaria, announces the death of George Maurice Ebers, the Egyptologist and novelist. He was born in Berlin in 1837.

A dispatch from Lloyd's agent at St. Johns, N. F., says he regards the reported wreck of the trans-Atlantic line steamship in the trails of Belle Isle as being without foundation in

The steamer Tillamook arrived at San Francisco Sunday evening 15 days from St. Michael, Alaska, with 175 passengers. She is reported to have brought down only a small amount of gold from the Klondike.

The correspondent of the London Daily News at Odessa gives, under reserve, a report that the Russian charge d'affaires at Pekin, M. Pavloff, will soon be removed, and he regards it as indicating a Russian backdown.

A special dispatch from Madrid says: Apparently the public is little concerned about the progress of the peace negotiations. There were bull fights as usual Sunday and the customary amusements proceeded with the utmost gavety.

In connection with the probable selection of Secretary Day as one of the peace commissioners, it is stated that ne will at an early date retire from the office of secretary of state, and after concluding his labors as a member of the commission, resume the practice of law in Canton.

Adjt. Gen. Corbin said Sunday night that, while no definite information had been received by the war department concerning the steamer Gussie, reported lost off the southwest coast of uba, he was reasonably sure the vessel was safe. She was sent to Santiago with supplies and from there was to go to Porto Rico with ordnance stores for the army of invasion.

The big transports Scandia and Arlzona may sail from San Francisco for the Philippines by the end of the week, if not before. There is a growing belief that they may not carry so many men as was at first intended, and that the beginning of peace negotiations will mean the mustering out of most of the troops remaining at Camp Merritt and the Presidio.

After a nine mile march to Ringgold, Ga., Monday morning, the signal corps, which has been stationed at Camp Thomas for some time, left on a special Western & Atlantic train for Newport News. The train goes via Atlanta and the Seaboard Air line. The seven regiments included in Gen. Wade's Porto Rican expedition are still waiting moving orders.

War department officials are entirely satisfied with the progress so far made toward the shipment to Spain of Gen. Toral's army surrendered at Santiago. The vessels which are to be used for this purpose are now on the way to Santiago and, barring accidents, they are expected to arrive there about the 13th inst, when the troops will be embarked as rapidly as possible and proceed at once to

#### TEAT ROUND-ROBIN.

Gen. Elufter Telegrapus the President in Regard to I . Publication-Fresh Troops Need Not Fear Sickness

WASHINGTON, Aug. 8 .- Gen. Shafter ans telegraphed the president regarding the jublication of the "roundrobin" signed by the general officers of his command, as follows:

"I can very readily see what intense excitement the publication must have ccasioned; a great deal more than the situation warranted. Situation is greatly aggrevated from the fact that before any of the men were taken ill they were thoroughly exhausted. At least 75 per cent, of the command had been down with malarial fever from which they recover very slowly and are in no condition to stand an attack of yellow fever or dysentery. Piaced here now in the condition in which they were when they came here I do not believe them to be in any particular danger. The regiment of immunes that recently arrived is not suffering at all. and I don't believe they will. They an keep out of the sun, are well lothed and well fed. . What put my command in its present condition was the twenty days of the campaign when they had nothing but ment, bread and coffee, without change of clothes, without any shelter whatever and uring the period twice as stormy as it has been since the surrender. Fresh troops reaching here in the middle of August, with good camps, good water, abundance of tentage—which they will find here—need not apprehend serious danger. I rangements have been made for an good camps, good water, abundance of thank you for the high regard in extension of limit on these tickets, which you hold my command and the and by depositing same with Joint value of the service they have renderel. It pays for all the suffering we tickets will be made good returning have endured. I have read this to-Gens. Wheeler, Liwton, Bates and Kent, who concur with me in the view expressed above."
